## **DETAILED ACTION**

### ***Specification***

The amendment filed 8/21/02 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: page 13, last paragraph – “The term ‘bevel’ as used herein is intended to be a generic descriptor for a part cut away and removed from the respective edge of the panel.” Examiner considers the “part cut” to include any type of cut, not only the chamfered/angled cut shown in the drawings.

Applicant is required to cancel the new matter in the reply to this Office Action.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 17 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 17, the claim depends from claim 2; however, claim 2 has been cancelled. Additionally, Examiner simply does not understand the claim.

Regarding claim 22, lines 9 and 10 recite “two or more configurations selected from the group consisting of” which Examiner considers a Markush group. However,

Art Unit: 3635

there do not appear to be any choices to select from. Additionally, line 14 recites "may be". Examiner considers this indefinite.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Examiner does not consider the amendments to claims 8, 9, and 22 to place these claims in condition for allowance. Therefore, claims 8, 9, and claim 22 as best understood, stand rejected under 35 U.S.C. 102(b) as being anticipated by Moriau.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Examiner does not consider the amendments to claims 17 and 18 to place them in condition for allowance. Therefore, claim 17 as best understood, and claim 18 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Moriau in view of Smith.

***Allowable Subject Matter***

Claims 1, 3, 4, 6, 7, 10-12, 14-16, 20, and 21 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Art Unit: 3635

The prior art does not disclose and it does not appear obvious to modify the prior art to disclose a floor panel with beveled edges, wherein the beveled edges have a covering layer that is separate from a panel decorative layer disposed on the exposed surface of the panel.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
